

BABY WOLF CODES

USEFUL

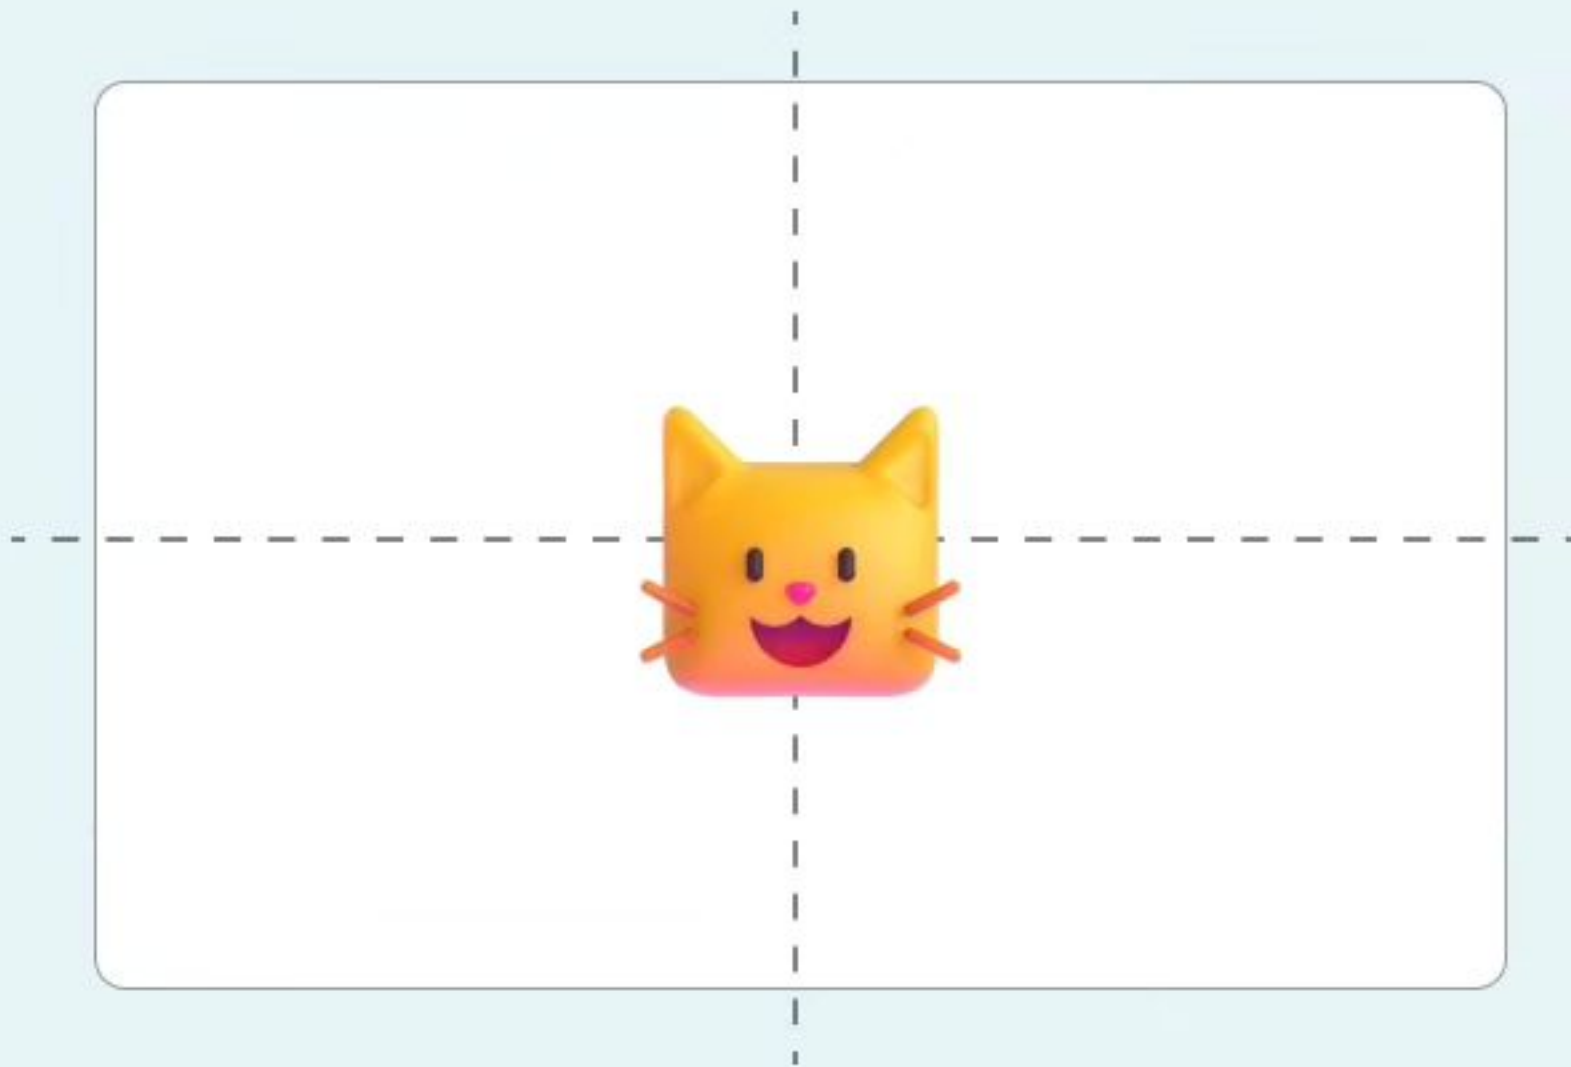

CSS

# Snippets

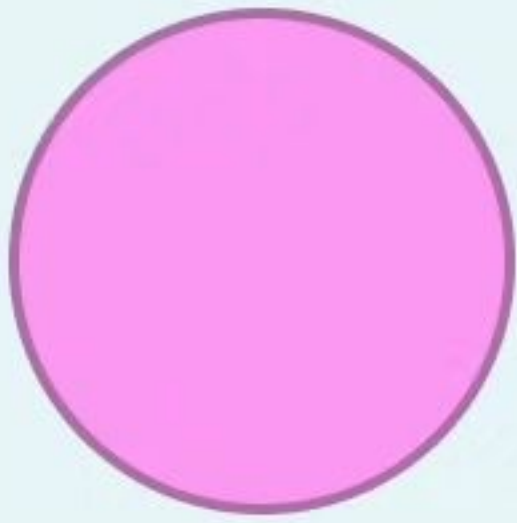

```
.css {  
  place-items: center;  
}
```

To center an item both  
vertically and horizontally

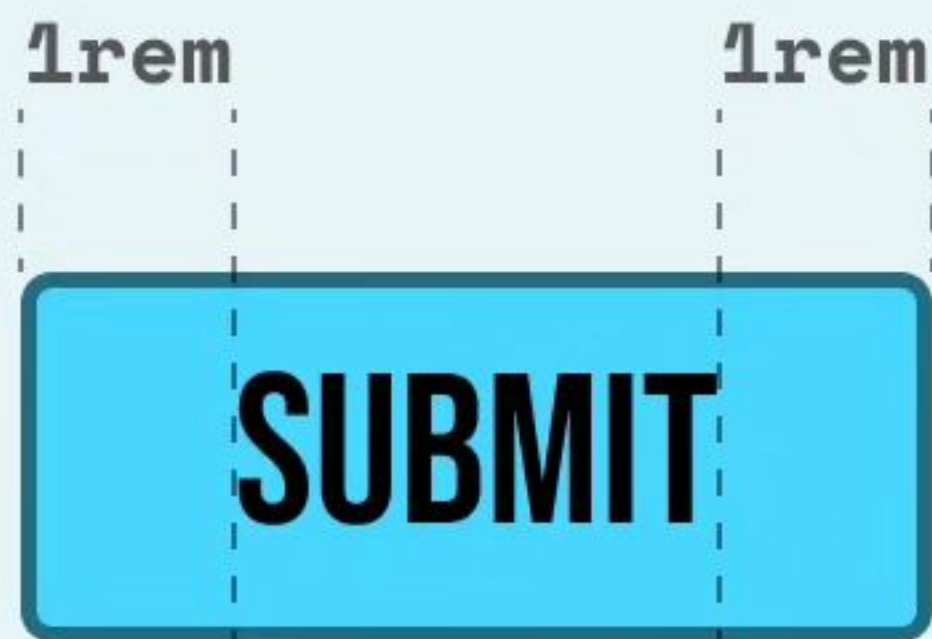

```
.container {  
  display: grid;  
  place-items: center;  
}
```

To create a circle

```
.circle {  
  width: 2rem;  
  aspect-ratio: 1 / 1;  
  border-radius: 50%;  
}
```

Set both both left and right padding

```
.button {  
  padding-inline: 1rem;  
}
```

- 👉 Use can use this for other properties like border and margin
- 👉 Use `-block` for vertical direction

Style a button during both  
hover and focus states

```
button:is(:hover, :focus) {  
  /* Style */  
}
```

Create equal width columns  
in a grid container

```
.container {  
  display: grid;  
  grid-auto-flow: column;  
  grid-auto-columns: 1fr;  
}
```
